

# TECHNICAL DATA SHEET

## ***TECTANE CARBURETTOR CLEANER***

Tectane Carburettor Cleaner is a special blend of cleaning agents formulated to give effective cleaning of both the interior and exterior of carburettors. It can also be used to clean Butterfly Throttle Valves and Idle Speed Actuators. Because Tectane Carburettor Cleaner is formulated with an added lubricant it will also lubricate any moving parts which have been cleaned.

### **USES**

Tectane Carburettor Cleaner is ideal as a cleaning agent for industry and trade, for repairs, assembly and routine maintenance. Tectane Carburettor Cleaner removes all oil, grease and fuel residues

- from internal and external parts of carburettors
- from Butterfly Throttle Valve assemblies
- from internal and external parts of Idle Speed Actuators.

**PACKAGING:** 400ml

### **APPLICATION**

Shake the aerosol vigorously. Spray from a distance of approx. 20cm onto the dirty surface and let it run off. Air dry the parts. Repeat the treatment several times if necessary.

### **HEALTH & SAFETY**

**EXTREMELY FLAMMABLE      HARMFUL**

Extremely flammable. Harmful by inhalation and in contact with skin. Irritating to eyes and skin. Vapours may cause drowsiness and dizziness. Do not breathe aerosol. Avoid contact with skin and eyes. Wear suitable protective clothing, gloves and eye/ face protection. Use only in well-ventilated areas. Dispose of this material and its container to hazardous or special waste collection point. Pressurised container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Buildup of explosive mixtures possible without sufficient ventilation. Keep out of the reach of children.

### **LIABILITY**

The information given is the result of our tests and experience and is believed to be accurate and reliable. However, as Siroflex Limited cannot know all the uses its products may be put to, and as application methods are out of our control it is the users responsibility to determine suitability of use.
